

OUR FUNDAMENTAL CONCEPTS OF DIVERSITY

DIVERSITY AT EULEN

GENDER

77% of our management and executive team is made up of women.

With both women and men contributing through diversity, we can create great teams and build a better society.

GENERATIONAL

32.5% of staff members are over 50 and 25% are under 35.

Collaboration and shared learning between generations adds up, leading to diverse experiences, values and practices.

FUNCTIONAL

There are 199 people with physical or learning disabilities working in our company.

It is our duty to build a society for all. As such, it is vitally important to learn from people with disabilities and work with them.

CULTURAL

We work with people from 117 different countries.

Through our different cultures, we can provide an alternative approach to finding new and better solutions.

TALENT

Everyone brings their own qualities and talent to the table.

We have a leadership team made up of 230 committed individuals who contribute to our work through a range of different talents.

Diversity is a reality for the world, our society and our organizations, and a value that is enriching for all.

Listening to each other, showing respect and learning from our differences makes us stronger and better.
